Re: *United States v. Robert Haughton*, 15 Cr. 95 (AJN)

Your Honor:

A handwritten signature in black ink, appearing to read "Alison J. Nathan".

I represent Robert Haughton in the above-captioned case and I write with the government's consent respectfully to move to dismiss the open violation of supervised release (VOSR) specifications. Mr. Haughton surrendered on June 25, 2021, to face two VOSR specifications. He pled guilty to the first of the two specifications on September 9, leaving open the second specification for failing to notify the Probation Office when his address changed. When Mr. Haughton was sentenced this morning on the first of the two specifications, the parties neglected to ask the Court to dismiss the open specification. I have conferred with Assistant United States Attorney Mathew Andrews and the government consents to this motion to dismiss the open specification. Thank you for your consideration.

SO ORDERED.

Respectfully submitted,
